The patient portal website is a convenient way to access your lab results and communicate with your doctor.

Features:

- Private and secure full HIPAA compliant messaging
- Access lab results

How to access your portal once it has been set up:

In your web browser, please go to: www.npihealth.phiportal.com then enter your username and password.

To view your test results - after you log in, click the icon with your name on it, and results will be under the section called "shared files".

To message your doctor - After you log in, compose a message and then assign it to your doctor.

To schedule appointments - It is best to call our office at 949-574-4978.

The patient portal is suitable for brief clarification questions that take the doctor 5 minutes or less to read and respond. Please schedule appointment for any questions that take longer than 5 mins to respond or for any significant changes to the course of treatment. The patient portal is not suitable nor intended for any sort of emergency issues. Your doctor will reply within 1-2 business days. Responses may be delayed over weekends, holidays, due to technical difficulties or high volume of messages. Please be aware of your communication with your doctor will become part of your medical records.
